

Givaudan[®]

Leading Sensory Innovation

Established in 46 countries with a turnover of 2.7 billions of euros, Givaudan is the leader in the Food and Fragrance Industry.

We are currently looking for the

HEAD OF DELIVERY SYSTEMS

to join our FRAGRANCE TECHNOLOGY TEAMS located at the heart of our European Fragrance Creation Centre in Paris/ Argenteuil (95).

Your main objectives will be :

- to direct the perfume innovation work to globally implement delivery systems across categories,
- to be close to our business and facilitate the transfer of exploratory ideas (research in & out) into consumer products,
- to manage a portfolio of projects in a business perspective,
- to develop new encapsulation technology at laboratory scales,
- to define perfumery rules of encapsulates in collaboration with perfumers.

This position requires a proven **project and portfolio management experience in R&D for major consumer goods company (ten years)**, a **sound knowledge of microencapsulation technology** and full understanding of our customers' needs in the Detergent or Cosmetics industries. Ideally, you should hold a PhD in Chemistry or other related sciences.

You will manage the Delivery Systems team and encourage interaction with other activities (Development, Perfumers, Technology, Sales, etc...).

Passion for perfume, enthusiasm, rigor and team player are key to qualities required, as well as a fluent level in English and French languages.

In addition , Givaudan Group practices a policy of skills development and offers opportunities for personal development.

Open date : 01/02/2010

Close date : 31/05/2010
