36th Annual Meeting & Exposition of the Controlled Release Society

Canal view of the Saint Nikolai Church Spire

Manage Time. Provide Flexibility.

Versatrol™ Controlled Release Softgels combine the qualities of a consumer preferred dosage form with the ability to control the release rate of active ingredients. Versatrol™ offers the flexibility to develop almost any release profile by simply tailoring the formulation variables. The result is a more predictable release profile. Contact Banner to find out how your compound might benefit from our proprietary technologies.

- Innovative controlled release delivery system
- Tailored release profiles
- Unique matrix formulations for both lipophilic and hydrophilic compounds
- Compatible with EnteriCare® enteric softgels
